## DETAILED ACTION

### ***Claim Rejections - 35 USC § 102***

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1, 2, 5, 6, 9 and 14 are rejected under 35 U.S.C. 102(b) as being anticipated by Winamp version 2.11.

*Winamp Overview (page 1-3) and New Features (pages 1-4), disclose first reproducing means (first event) for reproducing audio data based on first audio format(P ¼, version 2.11 Features Outline, bullet 1), second reproducing means (second event) for reproducing data based on second audio format ( p. ¼, Version 2.11, bullet 2), means for storing a play list which specifies a reproduction order of audio data and source of audio data by first and second reproducing means (second event), a switch for generating different events (first and second reproducing means)(P. 1/3, Winamp interface, bullet 2), control means (the executing means) for when operation of the switch is detected, initiating the first and second reproducing means (events) by referring to the play list). It is inherent that a computer is needed to run this program and the computer has control means necessary to detect a switch operation and initiated reproduction.*

***Allowable Subject Matter***

Claims 3, 4, 7, 8, 10-13, 15 and 16 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

***Conclusion***

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
